

# 2007 EDITORS' CHOICE TOP PRODUCTS

One of our most popular  
exclusives – the annual  
“Editors’ Choice: Top  
Product Picks”

**HARDWARE** – In the past, levers have offered more than grip and easy accessibility: They’ve created an opportunity for increased vandalism. By retrofitting the Vandlgard® option on existing Schlage® L-Series mortise locks or buying the product already equipped with this feature, however, exterior levers freely rotate down when locked. This proprietary feature prevents damage to internal lock components when subjected to excessive force.

**Vandlgard Option for Schlage  
L-Series mortise locks by Schlage,  
Ingersoll Rand Security  
Technologies (800-847-1864 or
