

Introducing the
B500 Series Deadbolt
 The best deadbolt ever *designed by locksmiths.*

More versatile

Accepts any Schlage cylinder for maximum installation versatility

Tapered

front housing is almost impossible to grab with a wrench and cannot be unscrewed

Secure

Integrated anti-pry shield covers latch to prevent attacks and holds lock securely in place during installation

Solid

Zinc bolt has hardened steel pin inside that spins in response to sawing attack and can't be cut through

Tougher

Thicker metal security strike back-up on jamb side has third screw inside the cup for deeper anchoring into the door

Stronger

Added space inside security strike box ensures a true deadlatch

Sleeker

Fully integrated trim piece means fewer parts out of the box

Streamlined

Deep drawn housing delivers a seamless piece of steel from beginning of helix to back of bolt for maximum latch reliability

UL listed fire cup

(available on fire rated locks)

Unprecedented

Adjustable backset with a helical design that locks into place with no adjusting during installation.

Bigger

Bolt diameter is 10% larger than typical bolts

Code compliant

ADA compliant thumbturn
